

SNEB Position Papers— Call for Topics

As part of SNEB's strategic plan, our extensive engagement in national issues, and the increase and growth of the Journal, we are continuing to solicit topics for position papers.

Position papers provide a comprehensive discussion of SNEB's policy on one or more topics. Containing extensive background information and analysis, the position paper provides a more complete understanding of the issues and rationale for the position(s) set forth by the organization.

The current position paper being written concerns sustainability. Members are invited to send nominations for position paper topics relevant to SNEB, other than sustainability.

To have a position paper topic considered for next year, send your topic and a brief rationale to the position paper co-chairs, Marilyn Briggs, PhD, RD (mbriggs@ucdavis.edu) and JNEB's Editor-in-Chief, Karen Chapman-Novakofski, PhD, RDN (kmc@illinois.edu) by **October 1, 2016**.

The position paper committee will review each submitted topic and rationale and decide on topics that will be forwarded to the SNEB Board of Directors (BOD) for vote. Once topics are approved by the BOD, authors and reviewers will be invited. SNEB position papers will be peer reviewed and published in JNEB.
